# Windows Snap App For Mac

And there have been other times where it says something about windows installer.. I am trying to install macromedia studio 8, ive tried creative suite (it worked when I used to use ubuntu a few months ago but not now) and photoshop cs2.. exe wine: could not load L'C: windows system32 install exe': Module not found But sometimes it doesnt come up with an error but still nothing happens.. Anyone have any idea? The following comes up in terminal maitland@maitland-laptop:/media/cdrom0\$ wine install studio 8.. Mac open exe Heya, I just installed wine onto Hardy and I have wine tricks and all that but when i try opening a exe files by double clicking it or using terminal it just doesnt open.
